AN EPI CLUTCH KIT FOR EVERY STYLE OF RIDING!

For over 25 years The Clutch Guys at EPI have been developing performance enhancing Clutch Kits for both racers and enthusiasts alike. Our kits are developed in real-world riding environments, resulting in truly "dialed-in" kits that are ready to bolt in and perform. They come with detailed instructions for easy installation, and The Clutch Guys are always here to answer your call if you need some guidance.

Sport Utility Kit

- Our best all around use kit
- If you do a little bit of everything with your machine this is the kit for you
- Great for trail riding, occasional mud and sand riding, plowing and hauling
- Makes up for the power loss and slow response of adding oversized tires
- Better low end and midrange acceleration
- Quicker backshift which results in crisp throttle response
- Reduces belt slip and clutch heat
- Kits designed for stock or oversized tires

Mudder Kit

- Designed for machines with large, aggressive mud tires
- Helps restore power loss due to addition of larger tires
- Allows for easier turning of larger tires in the mud
- Better low end power and torque
- Quicker backshift which results in crisp throttle response
- Reduces belt slip and clutch heat

Sand Dune Kit

- Designed and tested specifically for sand dune applications
- Different kits for stock and paddle tires
- Helps hold peak power RPM when dune riding and climbing hills
- Helps restore power loss due to addition of paddle tires
- Better low end power and torque
- Quicker backshift which results in crisp throttle response
- Reduces belt slip and clutch heat

Rock Crawler

- Designed and tested specifically for rock crawling applications
- Calibrated to provide a low engagement rpm to support technical maneuvers
- Added belt squeeze to eliminate belt slip
- Slow shifting phase that provides a smooth rock crawling/technical driving experience
- For low-mid range speeds only, not for high speed riding

Competition Stall

- Works with any tire size
- Raises the engagement/stall of the clutches for a hard-hitting competition style launch
- Great for mud racing, competition pulls, drag racing, or aggressive trail riding
- Harder hole shot for off-the-line advantage
- Doesn't effect top RPM or speed

Economy Kit

- For general trail riding
- Spring kit only, no clutch weights are included
- Works with any tire size
- Improves belt grip and backshift

PRO Series

- The Ultimate Clutch Calibration Kit!
- Allows you to fine tune your CVT to match your particular machine modifications and riding style
- Tune for different tire sizes and styles
- Each kit is custom designed and comes with a set of EPI adjustable weights, a variety of clutch springs, a custom cut helix (some models)
- Complete tuning instructions included

EPI Value Line Primary Clutches

Tested and validated by The Clutch Guys, these Value Line replacement clutches are a cost effective bolt on replacement for your worn out Polaris primary clutch.

We tested these clutches on our own machines for performance and durability and found them to be a solid replacement option at a great price. These clutches come without the spring or weights (just like the OE clutches), you can reuse your existing components or purchase new ones from EPI.

Polaris OEM Primary Clutches

- Replace your worn or damaged Polaris Primary clutch with a new stock unit
- Clutches DO NOT come with weights and spring. Purchase an EPI Clutch Kit and The Clutch Guys will pre-install the components
- Prices subject to change

INTRODUCING
PRO SERIES CLUTCH KITS
by EPI THE CLUTCH GUYS

TUNE YOUR CLUTCHES FOR:
ANY TERRAIN
ANY TIRE SIZE
ANY ELEVATION

ADJUSTABLE CLUTCH WEIGHTS
Each Pro Series kit comes with a set of machined, custom profiled adjustable weights and a supply of 2 different gram size magnetic inserts that allow you to fine tune the shift weights. This tuning ability allows you to adjust the weight characteristics and achieve optimum shift-out of the primary clutch for your riding style and other modifications. Ultimate primary clutch tuning!

CLUTCH SPRINGS
The Pro Series kits include a selection of both primary and secondary clutch springs that The Clutch Guys have determined will provide a broad range of tunability.

HELIX
Some kits include a custom cut helix for the secondary clutch which provides the most aggressive shift rate for your machine, resulting in huge acceleration improvements. The helix angle also provides outstanding backshift characteristics which results in ultra-crisp throttle response.

RAISING THE BAR ONCE AGAIN
AS WE LEAD THE PERFORMANCE AND TECHNOLOGY RACE!

The Original EPI Severe Duty Belt

CVT belts and clutching go hand in hand. No other belt can compete with the Original EPI Severe Duty Belt. It's designed to withstand the high heat and stress that today's high-horsepower machines dish out. EPI is world-famous when it comes to tuning CVT systems so trust the experts.

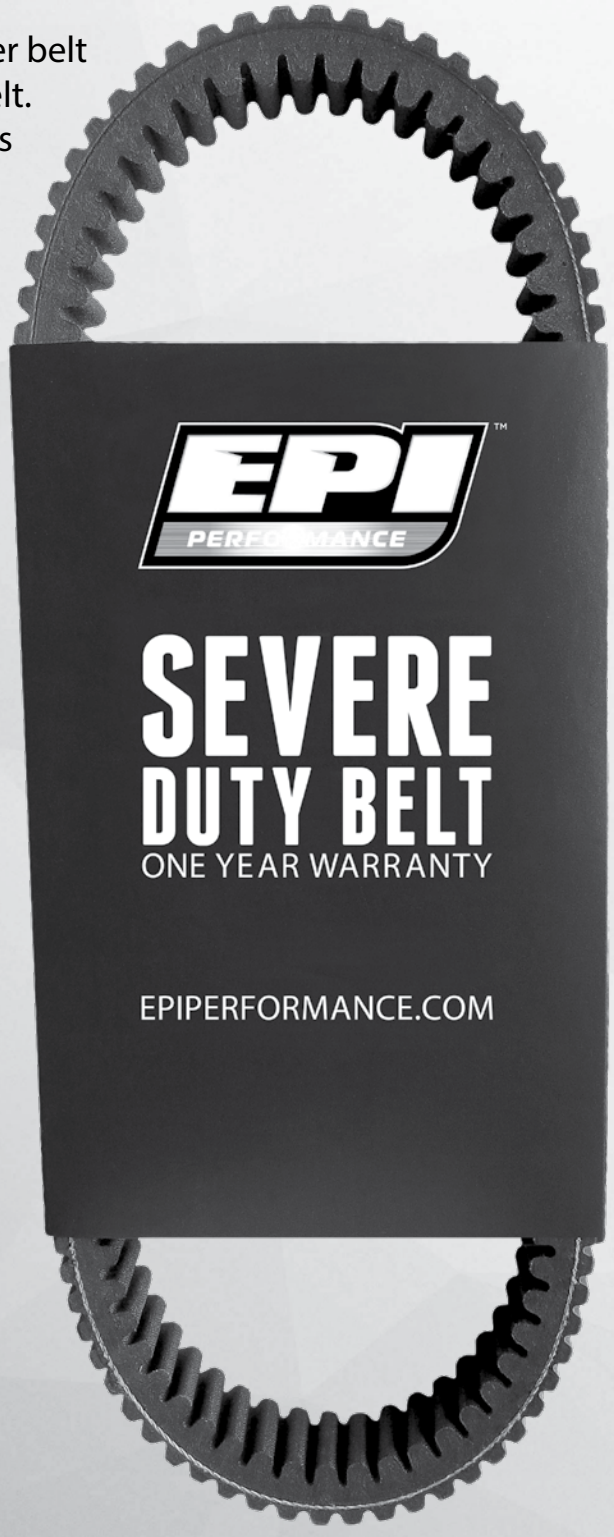

Super Duty Belt

- Designed as a durable stock replacement belt for powerful off-road machines
- Higher tensile strength and heat rating than stock belts
- Close tolerance construction to ensure proper fit, efficiency and durability

Standard Duty Belt

- Great value replacement belt for moderate power and usage
- Comparable to stock belt specifications
- Close tolerance construction to ensure proper fit, efficiency and durability

Clutch Weights

EPI Performance Clutch Weights have been the choice of Racers and Tuners for over 25 years. All of our flyweights are CNC machined from 4140 Billet Steel, then heat treated and nickel plated for extended wear. Each style of flyweight is tested with several different designs before arriving at the optimum profile that provides a smooth engagement and an aggressive shift-out of the clutches. When you're looking for clutch weights that are designed for maximum performance, call The Clutch Guys at EPI Performance!

Can-Am Primary Clutch Rebuild Kits

- Restore your primary clutch to like-new efficiency
- Primary Rebuild Kit includes: 12 buttons, 6 rollers, 6 roller pins and 12 washers
- Primary Button Kit includes: 12 buttons
- Primary Roller Kit includes: 6 rollers, 6 roller pins and 12 roller washers

The rollers in this kit were designed by The Clutch Guys to replace the stock composite rollers. They are CNC machined and hardened for a long service life. They can also be used to replace earlier model Can Am metal rollers.

Weight Pin Kit	WE210938

Pro Series Extreme Secondary Clutch Rollers

- WE213226 includes 2 rollers for the QRS clutch
- WE213227 includes 3 rollers for the QRS-X clutch
- Replaces OE 420629211 and 417127016

- Made with Fibermaxx, which is a proprietary EPI material that uses the latest technology to combine a self lubricating polymer with wear resistent fibers
- While developing this new material we found that it greatly outlasted the competitors rollers before showing any signs of wear during a 25,000 cycle load test
- Provides superior wear and heat resistance
- Allows the clutch to upshift and backshift more efficiently with less binding and reduced clutchwear.

*Due to the wide range of wear issues occurring with RZR 900 & 1000 model primary clutches, these rebuild components may provide varied results.We've seen extremely worn clutch towers and out of spec tolerances on RZR primary clutches of all mileages. Rebuilding a clutch that is beyond acceptable tolerance will result in premature failure of these rebuild kit components. Due to this, no warranty on these rebuild kits is provided.
**Will replace the square slider on the outside of the clutch and the round roller on the inside of the clutch.
*** Will also work on the OE Polaris updated spider part #1323400

*Due to the wide range of we ar issues occurring with RZR 900 & 1000 model primary clutches, these rebuild components may provide varied results.WE've seen extremely worn clutch towers and out of spec tolerances on RZR primary clutches of all mileages. Rebuilding a clutch that is beyond acceptable tolerance will result in premature failure of these rebuild kit components. Due to this, no warranty on these rebuild kits is provided.
**Will replace the square slider on the outside of the clutch and the round roller on the inside of the clutch.
*** Will also work on the OE Polaris updated spider part #1323400

Pro Series Extreme Secondary Clutch Rollers

- Designed to replace your stock square sliders on 2016 and newer Polaris secondary clutches
- Replaces the square sliders on the outside of the clutch (OE 3514926) AND the internal round roller (OE 3514929)
- Sold in pairs

- Made with Fibermaxx, which is a proprietary EPI material that uses the latest technology to combine a self lubricating polymer with wear resistent fibers
- While developing this new material we found that it greatly outlasted the competitors rollers before showing any signs of wear during a 25,000 cycle load test
- Provides superior wear and heat resistance without damaging your clutch like the OEM sliders
- Allows the clutch to upshift and backshift more efficiently with less binding and reduced clutch wear.

Primary Clutch Vespel Washers - 7556335

- These genuine Polaris washers are located on both sides of the primary clutch needle bearing and should be replaced whenever you replace the needle bearing.
- 2 required

Polaris Part #	Price
7556335	7.99

Primary Clutch Needle Bearing - 3514609

Fits many Sportsman, Ranger, and RZR models without EBS (Engine Braking System). Over time, dirt and debris can get in this bearing causing it to drag and eventually seize up.

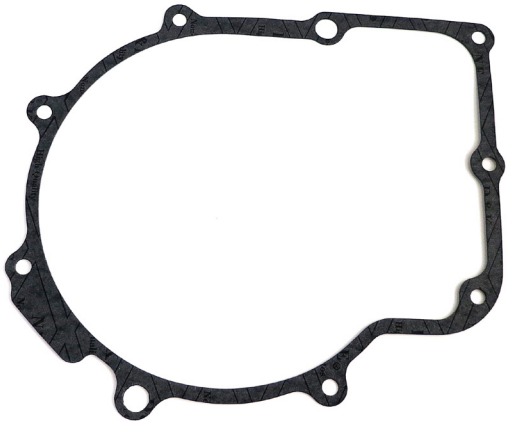

The symptoms of a dragging clutch bearing include:

- Difficulty shifting between gears
- Creeping at idle
- Squealing belt at idle
- Worn flat spots on inner belt cogs

Whenever you rebuild your primary clutch with new rollers, bushings and buttons it's a great idea to replace this inexpensive bearing also.

WHEEL BEARING KITS

- All the bearings and seals required to refit a wheel in one convenient package.
- Premium high-speed bearings feature low drag, double lip seals on both sides to provide superior exclusion of water and dirt and improve grease retention.
- High performance grease features special rust inhibitors for the most demanding applications.
- Wheel seals specifically designed to keep out water and dirt. The rubber coated outside diameter creates an optimum seal at the hub.
- Complete line of wheel bearings and seals with excellent inventory to ship your order fast.

HUB/STRUT BEARINGS & SEALS

- EPI™ Quality replacement bearings
- Manufactured as direct OE replacements
- Sold each, front or rear
- 2 required per vehicle

Note: On some applications you will notice a note in the front wheel bearing kit "see front strut". This is because the front wheel bearing is located in the front strut and there is no bearing set in the wheel.

Ball Joints

- Sloppy Ball Joints are an early indication of bad times ahead. Check your ball joints periodically for excessive play and replace them proactively. Lift your front end, grab the top and bottom of the front wheel and check for movement in the ball joints.
- EPI Ball joints are designed for free and clear articulation throughout the range of steering and suspension travel while withstanding the highest impact loads. And they come with all the small parts like cotter pins, snap rings, etc. And as always, you get our 1 year warranty!

King Pin Kits

- Components vary by model
- Includes all the spacers, pins and bushings required to replace worn components
- 2 required per vehicle

Lift Kits

An EPI Lift Kit will safely enable you to increase ground clearance and provide the necessary clearance to frame and body components if you've added larger tires to your machine. Designed by a team of riders who really know what lifted machines and big tires are all about, our Lift Kits will give you an additional 2-3" of clearance.

* If running factory wheels with this lift kit 1.5" Front and Rear wheel spacers are required – part # EPIWS012 (2 required)
** This lift will not work on stock rear axles. High Lifter Pro Series axles or Gorilla axles are required for 2011-15 models.
*** If running factory wheels with this lift kit 1.5" Front and Rear wheel spacers are required – part # EPIWS012 (2 required). This lift will not work on stock rear axles. High Lifter Pro Series axles or Gorilla axles are required for 2011-14 models.
**** If running factory steel wheels with this lift kit 1.5" Front and Rear wheel spacers are required – part # EPIWS022 (2 required)
[1] This lift will not work on stock rear axles. High Lifter Pro Series axles or Gorilla axles are required for 2011-15 models. Depending on factory wheel option, wheel spacer may be required.
[2] If Running factory wheels with this lift kit 1.5" wheel spacer are required.
[3] Does not work on DYNAMIX models due to the length of the factory shock. Starting with the 2018 Turbo Fox Edition, the customer will need to swap the rear shocks form left to right. The reservoir is mounted on the body for the Fox Edition models, causing interference from the reservoir to CVT pipe on the turbo. Starting with the 2018 Turbos equipped with Walker Evans Shocks, for the rear shocks, the customer will need to rotate the reservoir around to get clearance from the CVT pipe.
[4] Will not work with stock axles with build date 8/26/16 and newer

The Original EPI Severe Duty Belt

CVT belts and clutching go hand in hand. No other belt can compete with the Original EPI Severe Duty Belt. It's designed to withstand the high heat and stress that todays high-horsepower machines dish out. EPI is world-famous when it comes to tuning CVT systems so trust the experts. We wouldn't back our belts with a 1 year warranty if we didn't know they were the best!

Severe Duty Belt

- Maximum Aramid Fiber loading for incredible tensile strength. Aramid Fiber provides massive strength while still allowing the flexibility needed for efficient CVT operation.
- Special adhesive compounds result in high heat tolerance. The adhesive compound used in our belt will withstand much higher temperatures than normally encountered.
- Aggressive top cog design provides cross-sectional strength for aggressive clutch calibrations and allows the belt to accommodate tight radius turns with reduced friction.

Super Duty Belt

- Designed as a stock replacement belt on larger displacement machines
- Higher tensile strength and heat rating than stock belts
- Close tolerance construction for consistent sizing

PROCESSING AND SHIPPING

EPI will make every effort to have product in stock when you place your order and will provide same day processing and shipping for items in stock. EPI has selected UPS and USPS as our preferred carriers to offer a better experience to our customers. Refused packages that are sent back to EPI are subject to a 20% restocking fee plus freight charges. Orders placed after 12 PM for USPS and 3PM for UPS will be shipped the next business day.

SATISFACTION GUARANTEED

Customer Satisfaction is our #1 company goal. If you are not happy with our products, or you need to return a product, please let us know and we will make every reasonable effort to resolve the issue. See return policy below. Contact Customer Service at 218-829-6036.

DAMAGED SHIPMENTS

Please inspect your package immediately upon receipt. IN the rare event that your package is damaged in transit, indicate damage when you sign for the shipment. It is very important that you retain all packaging. Please contact EPI Customer Service immediately to report any damaged shipments.

BACK ORDERS

If an item is out of stock at the time you place your order we will contact you via phone or email to keep it on backorder and ship it to you as soon as it becomes available. All backordered items incur freight when they are shipped. If you do not wish us to backorder items for you, please let us know at the time you place your order.

PARTS INSTALLATION & FITMENT POLICY

ATV's / UTV's can be dangerous. EPI has no control over the use of any part. EPI expects the customer to exercise good judgement as to the proper selection, installation, use and maintenance of any part. EPI assumes no responsibility for damage or injury of any kind because of misuse, improper installation and improper application of any parts in any way by any person.

WARRANTY POLICY

EPI warrants its products to be free of defects in material and manufacturing for 1 year from the original date of purchase. This **does not** apply to electrical components, non-EPI branded parts, OEM primary and secondary clutches, normal wear or conditions resulting from misuse, abuse, negligence, accident, improper application, improper installation or alteration. This warranty covers the repair or replacement of the EPI product in question only, and does not cover labor charges to remove or install the EPI part or any other part or component that may incur damage as a result of a defective EPI part. The customer is responsible for any labor charges involved in removing and replacing the defective part, and for shipping charges to return the defective part to EPI.

BELTS: If, within 1 year of original PURCHASE date, the EPI belt fails due to a defect in material or manufacturing, a replacement belt will be provided by EPI upon inspection. A $20 handling fee and certain conditions apply, please see your EPI belt sleeve warranty form or contact our Returns Department at 218-829-6036 for details, and request a warranty claim card.

Value Line Clutches: Due to the primary clutch being a normal wear item and the extreme conditions it operates in, we offer a limited 30 day warranty on manufacturing defects only. If you experience any failure of this clutch within 30 days that is not due to normal wear and use, we will inspect and replace the clutch if we determine it was due to a manufacturing defect. Customer is responsible for shipping costs to return the clutch for inspection. This warranty does not cover any damage caused by a clutch failure or labor costs.

WHEEL SHAFTS & CV Joints: EPI Wheel shafts and CV Joints that are determined to have a defect in material or manufacturing will be replaced at no charge within 60 days of original purchase date. After 60 days and up to 1 year of the original purchase date a $25 fee will be charged for replacement. **EPI Wheel shafts and CV Joints are designed for use on STOCK machines. If your machine is lifted in any way this may result in failure of the component that is not covered by warranty.** A lifted machine results in a more severe CV joint angle and our replacement components are not designed to tolerate this increase in angle and may fail. Upon inspection, if any of the related signs of over-extended angles are present, the warranty will be void. Customer is responsible for shipping the failed component to EPI for warranty inspection.

Normal wear items: Normal Wear Items are not covered under warranty unless, within 1 year of original PURCHASE date, the EPI part fails due to a defect in material or manufacturing. In this case, a replacement part will be provided by EPI upon inspection. Normal wear items include but are not limited to: Ball joints, belts, brake pads and shoes, brake rotors, bearings, carbide runners, clutch rebuild kits, CV boots, seals, springs, suspension rebuild kits & components, slides, tie rod ends and u- joints

Electrial Components: Electrical components are not covered under any warranty and cannot be returned once installed or connected to power. Electrical components include but are not limited to: switches, ignition coils, CDI boxes and regulators.

This one year warranty does not apply to damages caused by removal of parts, modifications to the product, normal wear and tear, damages caused by accidents, improper use of the product, improper installation of the product, misuse, neglect or improper maintenance. The one (1) year does not cover use of the product for racing or other competitive activities. The warranty does not apply to rental or commercial purpose uses.

WARRANTY IS VOID on any vehicle that has been altered in any way to include performance enhancements to the engine other than the **OE DESIGN**.

EPI reserves the right to make the determination if the part has been subject to normal wear, misuse, abuse, negligence, accident, improper application, improper installation or alteration, and all such determination shall be final.

All warranty claims will be handled directly by EPI. To obtain service under this warranty please contact EPI for return authorization. Cost of removal, reinstallation, product pick up and delivery are the sole responsibility of the original owner. Retail customers must provide proof of purchase with in 1 year for warranty to be honored. **ALL RETURNS FOR WARRANTY MUST BE PRE-APPROVED WITH AN RA NUMBER DISPLAYED ON THE BOX. PRODUCT MUST BE RECEIVED WITHIN 15 DAYS OF DATE RETURN AUTHORIZATION IS ISSUED.**

EPI has no control over the use of any part. EPI expects the customer to exercise good judgment as to the proper selection, installation, use and maintenance of any part. EPI assumes no responsibility for damage or injury of any kind because of normal wear, misuse, abuse, negligence, accident, improper application, improper installation or alteration of any parts in any way by any person. EPI reserves the right to make changes to the warranty policy at any time without notice.
