SUPERIOR INTEGRATION

PRO HD SERIES HEAVY DUTY WINCHES

✓ Pre-wired chassis & no need to cut panels

Factory-installed wiring makes the controls simple to install. Mount the winch, connect the wires and trust that everything is routed safely, securely, and properly.

- ✓ Tested 1,200+ pulls at max load
- ✓ Built to withstand -20° F temperatures
- ✓ Operates fully submerged underwater
- ✓ Military tested and approved

- ① Sealed permanent magnet motor
- ② Cut steel gears and sealed drivetrain

③ PREMIUM SYNTHETIC ROPE

With its lightweight, yet extremely strong, design and superior flexibility, this 50 ft. long synthetic rope is easy to handle and can stand up to any tough job.

④ RAPID ROPE RECOVERY 5x FASTER

Retrieve cable 5x faster than standard mode on other Polaris winches. Get back to riding or complete your task quicker.

⑤ AUTO STOP TECHNOLOGY

Auto Stop technology protects and extends the life of your winch by automatically stopping the winch at the end of pull to prevent over-spooling. While plowing, it prevents the plow frame from bending by stopping the winch once the plow has been lifted.

✓ WIRELESS REMOTE

This convenient remote operates your Polaris winch wirelessly from within 50 ft. of the vehicle. Operate your winch safely outside your vehicle while on the job site or trails.

 BUILD A PLOW SYSTEM

ALL-TERRAIN TRACTION

It's tough to make Sportsman even more versatile than it already is. But with a set of Prospector Pro Tracks, you'll do just that. Tread through deep snow without concern.

PROSPECTOR PRO 2.0 TRACK SYSTEM

- A** New front dual stabilizer for improved stability
- B** Polaris-specific gearing provides 1:1 ratio to:
 - Minimize track slip, providing better climbing ability and improved traction in deep snow
 - Improve top speed over prior models by approximately 5%
 - Reduce operating RPM for a quieter ride
 - Improve driveline durability, which allows vehicle to run at a lower RPM, decreasing engine wear
- C** Polaris exclusive optimized hub geometry that minimizes feedback and eases steering effort
- D** Lightweight design provides for better flotation, eases steering effort, and provides better vehicle control
- E** Flexible lug design provides the highest level of deep snow performance by lifting up in deep snow as opposed to digging down

TIRE SEALANT

24 X 7 COVERAGE | BE PREPARED FOR ANYTHING

HOW IT WORKS

- 1 Tire sealant remains liquefied inside the tire until a leak develops in the tire or wheel.
- 2 Once a leak occurs, the tire sealant rushes out of the tire and quickly creates a permanent solid plug, maintaining tire pressure so you can continue your ride.

MAINTENANCE & GARAGE

FACTORY APPROVED. Every Polaris vehicle has been engineered and manufactured to deliver performance. Keep it that way by using the same lubricants, cleaners and service parts our factory-trained technicians use.

OIL & LUBRICANTS

Our PS-4 engine oils provide ultimate performance and protection, they're formulated with exclusive additives to keep engines clean from deposit buildup. These powersports-grade full synthetic oils helps maximize power and protect your engine for the long term.

PS-4 FORMULATIONS BEST PROTECTION, BEST PERFORMANCE

PS-4 5W-50 FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -40° F to 100° F.

1 Quart 2876244	1 Gallon 2876245	16 Gallons 2876247	55 Gallon Drum 2876246	330 Gallon Tote 2878814
--------------------	---------------------	-----------------------	---------------------------	----------------------------

PS-4 0W-50 EXTREME FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -45° F to 130° F.

1 Quart 2889395	1 Gallon 2889396	16 Gallons 2889397	55 Gallon Drum 2889398	330 Gallon Tote 2889399
--------------------	---------------------	-----------------------	---------------------------	----------------------------

PS-4 EXTREME SYNTHETIC 0W-50

- Our best extreme high and low temp formula, excellent for high temperatures and racing, even at temps of 130°F, plus easier cold starting even below -45°F
- Expect the best in wear protection thanks to premium PAO and ester base stocks combined with a balance of moly and ZDDP additives
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power

THE BEST PROTECTION, MAXIMUM PERFORMANCE

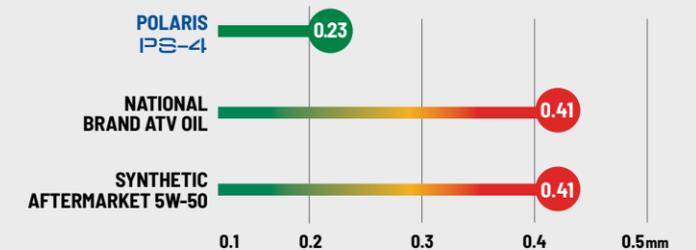

- Powersports grade full synthetics provide long lasting engine protection
- At least 40% improved wear protection compared to all aftermarket oils tested (see engine wear test chart)
- Polaris exclusive clean additive system
- At least 50% less deposits than all aftermarket oils tested (see deposit test chart)
- Cleaner engine with less deposits means consistent maximum power and performance

WIDEST VISCOSITY FOR ULTIMATE PROTECTION

ENGINE WEAR TEST

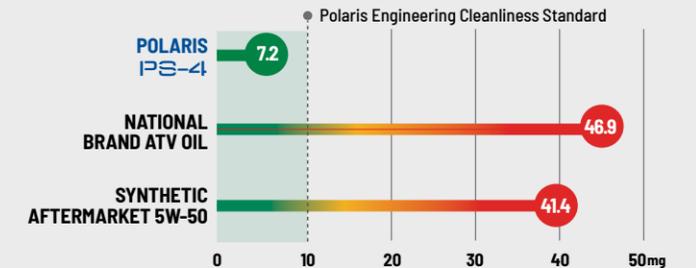

LOWER NUMBER = LESS ENGINE COMPONENT WEAR
LESS WEAR ON PARTS MEANS LONGER ENGINE LIFE

ASTM D4172. In 3rd party testing against 9 competitive products Polaris had 40% or better wear protection compared to all of the tested products. Numbers represent mm of wear scarring measured. Test measures wear at contact points, wear scar is measured for its length and width (in units of mm). Lower wear numbers mean better wear protection and friction reduction.

DEPOSIT TEST

LOWER DEPOSITS = MAXIMUM POWER

ASTM D6335. In 3rd party testing against 9 competitive products Polaris PS-4 had less than half the deposits compared to the next closest product. No other tested products met Polaris Engineering standards for deposit cleanliness. Test measures mass of deposits in mg in high temp, high stress test cycles. Higher deposits will impact engine power and performance.
